Inverter Type	Hybrid (Battery Ready)
State	Bihar

Power Your Home with Free Solar Energy

Join India's largest rooftop solar installation program. Get up to Rs 78,000 subsidy and reduce your electricity bills to zero.

Why Every Indian Home Needs Solar

With rising electricity costs and growing energy demands, rooftop solar is no longer optional - it's essential for India's energy security and your family's financial future.

Rising Electricity Costs

Electricity tariffs have increased by 30-50% in the last 5 years. Solar locks in your energy costs for 25+ years.

Growing Energy Demand

With EVs, ACs, and smart appliances, household energy consumption is doubling every decade.

Limited Time Subsidy

PM Surya Ghar Yojana offers up to Rs 78,000 subsidy only until 2027. After that, you pay full price.

Earn From Surplus Power

Net metering allows you to sell excess electricity back to the grid. Turn your rooftop into income.

National Impact of PM Surya Ghar Yojana

720 Million Tonnes CO2 Saved over 25 years

17 Lakh Jobs Created in solar sector

About DIVYANSHI SOLAR

DIVYANSHI SOLAR delivers premium renewable energy solutions focused on long-term value, substantial savings, and lifetime customer support. We are committed to transforming how India consumes energy through innovative solar technology.

For the last 8 years, we have been closely associated with Hitachi Payment Services Pvt. Ltd., delivering mission-critical financial infrastructure. This deep experience in nationwide deployment, compliance, partner management, and operations forms the backbone of Divyanshi Solar.
